This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

EDITOR'S INTRODUCTION.

THIS is the fourth volume of the published records of Dedham, and is printed pursuant to a vote passed and an appropriation made at the last Annual Town Meeting. It reproduces in type all the manuscript volume known as Book Three of the General Town Records, which relates to the Town Meeting and Selectmen's Records, the rest of that book, which is not reproduced in this volume, being a duplicate record of a portion of the Land Grants which are recorded in Book Two. A large portion of this book is in the handwriting of Eleazer Lusher, the rest being written by Timothy Dwight and Joshua Fisher, except the last two pages, which appear to be in the handwriting of Thomas Battelle, who may have acted as Clerk pro tem. after the death of Eleazer Lusher. Book One of the General Town Records was all printed in our last volume of published records, and this Book Three is a continuation from Book One. Manuscript Book Two is wholly devoted to the record of Land Grants, and was transcribed several years ago for the Town, and another copy has recently been made for deposit in theRegistry of Deeds. Manuscript Book Four contains a miscellaneous collection of papers, and records, principally of Land Grants, and so much of that book as relates to the period covered by this volume is here reproduced. Book Five continues the General Records of the Town from the close of Book Three.

Search has been made in the Massachusetts Archives at the State House and in the old Court Files at the Court House in Boston for all papers dated prior to 1673 which relate to Dedham, and the papers found have been carefully transcribed and are printed in the Appendix to this volume. Transcripts have also been made from the printed Massachusetts Colony Records, because those Records are not easily accessible to many who may consult this volume, and because they

make clearer the papers found in the Massachusetts Archives. In quoting from the Colony Records, the text, as well as the pagination, of the printed copies has been used. A considerable portion of the records and papers in the Appendix relates to the Indian settlement at Natick, the grant from the Town therefor, and the controversy which grew out of a misunderstanding with regard to the rights granted to the Indians. A long litigation ensued between the Town and the Indians, and much of the pleadings and evidence in the case appears in the Appendix. This case has more than a local interest, and it is believed that many of the facts in that interesting controversy are here printed for the first time. Apostle John Eliot was the champion of the "pore Indians," and many papers here reproduced are in his handwriting. In his statement of the case he makes reference (page 259) to the original Indian Title, and it may be well here to refer to the deeds which the Town subsequently obtained from the Indians, the full text of which would naturally come in the next volume of printed records, but which may properly be here described.

The Town now has three Indian Deeds. One dated April 14, 1680, from William Nahaton [signature written hahaton], alias Quaanan, his brothers, Peter Natoogus and Benjamin Nahaton [written Ahotton], and their sisters Tah kee suisk Nahuton and Hanna Nahaton [written Nahuton] alias I am mew wosh, living in Punkapogg, near Blue Hill, conveys to Dedham all their interest in a tract of land as it lyeth towards the Northerly side of the bounds of Dedham by the Great Falls in Charles River, and bounded upon Charles River towards the East, and upon said River up stream as the river lyeth and so continuing abutting upon said river until it come to the brook called Natick Sawmill Brook and abutteth upon said brook toward the West and so with a varying line near the Southerly side of the herd yard and from thence near the foot of Maugus Hill on the Southerly side and from thence the same course until the line come to that brook called Rosemary Meadow Brook and the said brook to Charles River is the rest of the bounds. Another dated April 18, 1681, from John Magus and Sara Magus, Indians inhabiting Natick, conveys to the Town the whole parcel of land in Dedham bounded upon Watertown bounds in part and Natick in part toward the North, upon Natick bounds toward the West and Southwest, upon Charles River toward the South, and upon

the lands that William Nahayton sold to Dedham towards the Southeast and upon Charles River towards the Northeast. The third deed from Charles Josias als Josias Wampatuck, son and heir of Josias Wampatuck late Sachem of the Indians inhabiting the Massachusetts in New England, and grandson of Chickatabut, the former grand Sachem to the town, dated April 18, 1685, conveys the territory known as Dedham as it lyeth between the towns of Cambridge, Roxbury, Dorchester, Wrentham, Medfield, Watertown and Natick. This deed recites that the grantor is informed and well assured from several ancient Indians, as well those of his council as others, that upon the first coming of the English to sit down and settle in these parts of New England his grandfather Chickatabut for encouragement thereof and upon good consideration conveyed the land to the English settlers who had divided it among themselves and alienated the same to one another and had quietly occupied and enjoyed it for about forty-nine years last past, and this deed is for further ratification and confirmation of that grant.

In *Memorial History of Boston, Vol. I, p.* 250, can be seen a heliotype copy of a deed of Boston Neck from the same Josias, dated March, 1684–5, in the same handwriting as the Dedham deed, with all the same pen and ink embellishments and peculiar flourishes. Upon the Dedham deed appear the autographs of William Stoughton, Joseph Dudley, and Governor Bradstreet. Those who may desire to study the legal effect of Indian deeds are referred to a very interesting case in the United States Supreme Court, 1823, *Johnson vs. McIntosh*, 8 *Wheaton's Reports*, 543. The opinion in this case is written at length by Chief Justice Marshall, sustaining the title from the State against the title from the Indians, Daniel Webster appearing in behalf of the Indian title.

The Editor desires to express his appreciation of the courteous assistance rendered him by the Secretary of the Commonwealth and the officials in charge of the Massachusetts Archives, and by John Noble, Esq., Clerk of the Supreme Judicial Court, in his examination of the records and papers in their custody.

All the fac-similes in this volume were traced from the original by Julius H. Tuttle, Assistant Librarian of the Massachusetts Historical Society and Editor of the Dedham Historical Register, and the Editor

desires to express his thanks to Mr. Tuttle for the assistance rendered by him in this work. It is believed that most of the signatures reproduced upon pages 271 and 277 are autographs.

The name printed "Edward Parker" as a signature on page 284 with "Edw Tyng" and "Richard Cooke" should read "Edward Jackson," and the word printed "drucking," page 184, line 14 from bottom, should probably read "Trucking."

The same characters for contractions are used here as in Volume Three, and they are fully explained in the Introduction to that volume.

The plan of the index differs slightly from that adopted in former volumes; where the same name appears on successive pages the index only gives the first and last pages with a dash between, instead of giving each page as heretofore.

The transcript for the printer (including the Appendix) has been made by Miss Martha A. Smith, the Assistant Librarian of the Dedham Historical Society, who also made the copy for the last volume, an expert in reading ancient manuscript. She has rendered the Editor valuable service, not only in the accuracy of her copy, but in assisting in the proof reading and in the construction of the index.

The proof-sheets have been examined by Rev. Edward G. Porter of Dorchester, formerly of Lexington, author of "Rambles in Old Boston, New England" and other historical works, who has kindly written an Introduction to this volume. Mr. Porter has given many years of careful thought and research to the history of the several Indian Villages and is therefore interested in the events recorded in this volume. Expressions of appreciation for the work which Dedham is doing in the publication of its early records are of special weight from such an authority on historical matters.

INTRODUCTION.

By Rev. Edward G. Porter.

The town of Dedham deserves much credit for putting the precious records of its early history in print; and it is to be congratulated that it has citizens who not only appreciate the value of such reproductions but who are themselves willing to give unlimited time and absorbing labor to the accomplishment of so great a work.

The Editor of these volumes has evidently made his task a labor of love. Feeling, as he must, the inestimable value of such documents to all future students of our local history, he has devoted himself to their preparation in permanent form to give security against the ravages of time or fire or casual loss.

This is a service rendered not only to Dedham, but to Dorchester and Roxbury and Medfield and Natick and all the towns around; and indeed to the country at large, for the descendants of Dedham families are scattered far and wide, and in these days of quickened historical and genealogical inquiry, they are turning to the ancestral home with greater interest than ever. And Dedham has indeed a municipal history of which it may well be proud. Its early transactions are more fully recorded than those of its contemporaries in the colony; and these records it has preserved unbroken from the very beginning.

The volumes already printed have attracted wide attention and furnished historical material to be found nowhere else. Ordinary town histories are apt to be disappointing because they are not complete and authoritative. They give the views of their authors but not always the original facts, which in many cases might be left to speak for themselves. Of course a book of records is not a history, but it is the source of history and the ultimate appeal in matters of doubt. Critical students require original materials to work upon; and we have been slowly learning how to use these inherited documents that have come down to us in the archives of the

town, the colony and the courts. They have been neglected by the general student because of the labor involved in consulting them. But such reproductions as this series which Dedham has undertaken, with its indexes, autographs, notes and transcripts will bring unknown treasures to the light and greatly enlarge the sum total of our knowledge.

The Editor has scrupulously retained every possible characteristic of the original writing as to spelling, abbreviation and punctuation. The labor required to do this, and to read and spell out the proof, can be understood only by those who have tried it. The result appears to be a model of such work. Some readers would have been glad to find a more liberal annotation elucidating various obscure points, but that would have demanded more of the Editor than could reasonably be asked.

This volume—the fourth of the Dedham series, and the second of the general town records—covers about fifteen years, between 1658 and 1673, a period of great development, both in the town and in the colony. It shows how an independent, homogeneous, self-respecting community could manage its own affairs upon the good old New England plan, which has never been surpassed. The town meeting, the town officers, and back of both, the controlling town sentiment constituted a triple power which ruled supreme with all the necessary sanctions of law and safeguards of liberty.

Such records, of course, do not belong to the class of literature commonly called popular. They are far removed from the range of fiction or poetry or tradition. But one who makes himself familiar with these annals will find vastly more than mere hard and dry facts. He will read between the lines, and by allowing his imagination to brood over them, he will find here elements of civics, economics, education, religion, domestic and social life, and even the touches of romance. In fact, the story of such a town is intensely dramatic, especially in the age of the founders. There are acts, and scenes, and *Dramatis personae*, and exhibitions of human passion and pride, both tragic and comic. Here are not only examples of selfishness, but of the noblest generosity and sacrifice, of personal magnanimity and courage, of steadfast loyalty and patriotism. These qualities may not appear at first sight as one opens the book. The quaint spelling disguises the narrative and diverts the attention; but to the student this peculiarity is really a charm in itself, and it belongs to all the original literature of that period in England as well as in this country.

Such family names as Everett, Dwight, Fairbanks, Colburn and Gookin would hardly be detected at first in Euered, Dwite, Farbanke, Coaleburne and Guggan. "Blew Hill" is interesting. "Cummitty," "Endions" and the now obsolete "devident" are perplexing but suggestive. It will be noticed that all the names of Dedham's inhabitants at that early day are either English or Scotch.

The topics recorded here are as numerous and varied as the occupations and laws and relationships of common life. They include such practical matters as meetings, votes, elections, boundaries, highways, bridges, mills, taxes, fines, grants, warrants, bills, treaties, arbitration, cartways, horses, cattle and sheep. We have the doings of the selectmen, deputies, constables, assessors, surveyors, woodreeves, fenceviewers and all sorts of committees. There are also references to the training field, the church meadow, the great cedar swamp, the pound, the burial place, the new plantation of Wollomonuppoag. the Indian settlement at Natick, and the large grant of land far away at Pocumtuck. Provision is made for public school instruction, for catechizing children, for seating the inhabitants at the meeting-house, for a new gallery, for the killing of wolves, for gifts to Harvard College, for w eekly contributions on the Lord's day to support the minister by the envelope system—which thus appears to be not wholly an invention of our time.

An interesting feature of this volume is the action of the town upon the death, in 1671, of its first minister, the beloved Mr. Allin, whose term of service covered thirty-three years—the entire span of the first generation in Dedham's history. The following year the second meeting-house was built.

To many readers the most valuable thing in the book will be the frequent references to the Apostle Eliot and his famous village of "praying Indians" at Natick. The relation of Dedham to that plantation, as given here, forms a new chapter in Eliot's life, the details of which have never before been given to the world. It is well worth studying, for though rather intricate and technical in its legal aspects, it reveals certain important facts: 1. The generosity of Dedham in giving up 2000 acres of land on its Western border near the Charles River for the humane purposes for which the Natick community was organized. 2. The unfailing devotion of Eliot to his "poor Indians." 3. The mistake made both by Dedham and by Eliot in not definitely understanding each other as to the bounds of the plantation at the beginning of the settlement. The result of this misunderstanding was that the Indians occupied and improved certain lands which Dedham afterward

claimed that it did not intend to give them. This was the area south of the river at the Natick bend.

Dedham, jealous of her rights, naturally objected, and gradually conceived a prejudice against the Indians which no doubt strengthened her opposition. Out of this topographical controversy, which went on for years, came the suit at law for the recovery of the disputed land, or satisfaction in £500 sterling, to be paid by the country. The testimony and arguments on both sides were carefully prepared and strongly presented. Eliot's defence is embraced in eleven propositions with elaborate subdivisions, showing his sturdy championship of the Indian cause. His plea was that the place was not bounded at the time of occupancy, and therefore, as the Indians had used it from time immemorial, they could take it. He was also confirmed in this opinion at the time—1650—by the friendly interviews he had with Mr. Allin, Joshua Fisher, and other leading men of Dedham, who led him to believe that he had the town's consent. The case was finally decided by a compromise by which the Indians retained the land and Dedham received a grant of 8000 acres at Pocumtuck—now Deerfield.

Mr. Hill has wisely collated the details of this case from the colony and court records, and placed them in the Appendix. No more appropriate subject for a debate by the Dedham Historical Society could be found than the long and exciting controversy which led to this now famous suit.

The persons aboue named being the comity a bout woolomonupack & the Select men; considering of the motion a bout payment of Capt Willit that haue ben obstructed in regard of diuers queries conserning woolomonupack doe judge it mett that the case should speedily com to a resolution that so the ingagment to Capt Willitt may be performed; and our owne futer peace to be setled and continued

[65] where vpon we agreed to propose to thos fiue men betrusted to act in refference of the case dependinge betwen the Towne & woolomonupack as followeth

1 whether thos that haue proposed to goe & are exsepted by the comity to woolomonupak haue a greed with any of the propriators a bout there whole rights at woolomonupack: if with any then haue many

2 whether the number agreed with all: be sufficient incoragement to goe on with the plantation & may be likely to lay a foundation of peacable proseeding there: and continuing of peace heere

3 whether thay doe pay the mony rate for any of the propriators that still continue here; & for howe many:

4 what care is takin for thos that haue not subscribed at first or Last: that thay may haue there just right

5 whether all things considered as they are nowe surcomstanced that thay resolue to goe on to make it a plantation or not that is such a plantation as the Towne intended

Thay takin thes queries into consideration returned there answer as followeth

To the first we say If you intend only that Land granted a plantation we answere in the affermitive

To the second part of the first querie we say to the number of ten

To the Second querie we Answer in the negative

To the therd If we had due incoragement to goe on we will pay the the mony for them agreed with: & all others we cane agree with

To the fourth all though we haue aduentered to make propositions in reference to a greement yet we are not in a capasity to giue them there just rights

To the last we Answer in the negitiue

The persons subcribeing to the Answers of the former questions further propound as followeth

1 though by consideration of seuerall difficulties that seenee to p^r^sent in this case we are discouraged at p^r^sent as the case nowe stand yet we are not free or desirous to leaue the worke altogether but in case the Towne be pleased to direct vs and enable vs to proseed in a safe way: we are willing & ready to proceed

2 we haue bene at charges there in makinge some emprouments there & we beinge not well able to beare the losse of that without being in some measure disabled to beare thos burthens heere which we seeme to be called to beare desire the Towne would provid some waye to free vs from that Damage

we Answer to thes propositions first we conceaue the p^r^mises considered that difficulties indeed seeme to be much in your way at p^r^sent & we suppose that yet some other way may be thought of to further a plantation there viz by layeing out to each propriator in Towne heere: his part proportionably in that 600 Acres for a plantation at first intended & so leaue each man to bargaine for hims [ ] [66] as he please wherein possibly some of your selues may be supplyed

2ly we judge payement for your emprouments ther should be allowed: that is if the same parcells emproued fall not to your selues: then those men to whome they shall fall be enjoyned to make you reasonable sattisfaction: or compound some other equal way except the Towne allowe your selues those parcells without Lott

Dedham. Friday. the 17th of February, 1659

Henry Phillips

Wee whose names are subscribed, being Arbitrators indifferently chosen between the Towne of Dedham on ye one pty, and Ensigne Henry Philips &c. on the other pty. as is above prmised, Haueing fully heard examined, & considered, the seurall pleas wth the evidences thereof prsent as also haueing pvsed their bookes of towne Records declareing their acts [&] proceedings in the first setling of the said plantacioñ, referring not only to the complaints of the said Henry Philips, but also of all such as haue seen cause to object against that act of the Towne & [select] of 1656: setling the Comonage for cattle, & rule for division of [ ] waste lands, as also the seurall complaynts & greivances of pticular persons ariseing therevpon, being by thier publique vote referred & by them wholly left, to our Cogniscance For the determinaciōñ & finall issue thereof, as by the said vote is before declared, Wee do hereby declare our Award and finall issue of the said cause & causes to vs so comitted & left in mannr following. Viz. 1. Whereas sundry haue pleaded that in the infancy of these plantaciōñs while the Towne was not filled with Inhabitants, the first planters agreed that they would entertein only sixty persons to the priveledge of house lotts, & that according to the said first divission, eurie person being an Inhabitant should haue all after divissions made him in the Towne comons. We haueing considered the seurall evidences & records of the Townes proceedings therein, do not see cause to allow such act to be legally vallid, & that ye rather considering that for about twenty years now past, the whole transaccōñs of the Towne, as well in all divissions & grants of lands, as also their paymts of all Towne charges, haue ben wholly inconsistant there with, & repugnant thereto.

2: Whereas sundry haue objected agst the legallity of that act of the Towne (proporccōñing the comons & feeding lands) in the yeare 56: as being not only repugnant to that first agreemt above menccōñed, but also vnjust and vnequall in sundry respects. Wee haueing considered & duly weighed the seurall pleas referring to the same, by both ptyes prsented to our consideraciōñ, do hereby declare our award concerneing the same in mannr following. Vizt. 1. That it will tend most to the setling of peace, & maintenance of justice & equity. that the Comon priveledges of the Towne, be by a just & equall rule proporccōñed vnto, & stated vpon the seurall inhabitants, it being not only agreable to ye example of good men, left vpon Record in Gods Word, but also the neglect thereof, by long expience, found in sundry places, tending notonly to be an occasion of much injustice & wrong to sundry pticulars, but also to the ruine of the whole in a short time.

2ly. That the rule of division observed by the select men in yt act of 56. of persons & estates, with other meete consideraciōñs, being aswell agre-

able to the practise of this Country, as also consonant to scripture example, and was also by the select men according to their instruccōns they had first receiued from the Towne, the p^r^mises considered we conceiue that the select-men are not to be blamed for their attendance the seruice of the Towne therein.

[3.] Wee do declare that the divission of the Towne Comons, [ ] ng grounds. woodes, & waste lands, (excepting only allowance in case of pticulars hereafter menccōned) as it stand Recorded in the Towne booke, by their act in 1656: shall be made good vnto the seu^r^all Inhabitants accordingly, as also those to whom that addition of 25: comons was afterward added, we do confirme the same to the seu^r^all pticulars, as it stand recorded in the Towne booke. with such further addition to sundry other persons as is hereafter menccōned.

4^ly^. We do declare it to be our determinaciōn that the execuciōn or putting into act the rule of Divissions, whether of comon feed, Woodes, & waste lands, whether in part or in whole, from time to time shall be according to the mind and consent of such persons as from time to time, & for the time then being shall be legally interested in the greater part of such comon rights, according to this o^r^ act & Award, & not according to the greater number of Inhabitants or other persons interested therein.

5^ly^. That all grants of swamps, woodes, & waste lands or other p^r^viledges, made by the Towne since that act of 56. before recited, whether to the whole, or to any pticular person or persons, shall remayne legall & vallid to all intents & purposes, according to the true intent of such grant, any of the aforesaid rules of division not withstanding.

Church lot regulated

6^ly^. That the lott reserved for the vse of the Church shall in all respects be accomodated, according as those to whome the greater part of comon interests in ye towne appteineth, shall Judge meet, any grant to ptic [ ] persons not with standing

7^ly^. That as a further addition to sundry persons (as was before p^r^mised) over & besides their first grant, in y^t^ act of 1656. before recited, together with ye addiccōn of twenty & five Cow comons added by anie after act, & divided to sundry of them. We do judge meet to add thereto in manner following. vizt. To Anthony Fisher sen. one Cow Comon. To Lambart Genery one Cow comon. To willm Bullard sen^r^. two Cow comons, & one sheepe comonage. To michaell Medcaffe. one Cow comon. To Jonathan Fairebanks sen^r^. one Cow comon. To Henry Philips Six Cow comons, & one sheep comonage. Also wee do hereby declare it to be our award & determinaciōn that all such as haue any Cow comons, shall haue a proporciōnable interest in the divission of woodes & waste lands, as is proporcion [ ] to Cow comons, or the numb^r^ thereof, by that act of 1656. before recited. & that all

the said divissions of woodes waste [ ] and Cow comons, according to the rules hereby determined & concluded, shall stand and remaine good to the persons therein interested, any form^r or other orders of this towne, repugnant herevnto notwithstanding.

Finally, Wee do award & declare that it shall be in the power of the Inhabitants & Select men, from time to time as occassion shall require for raiseing of Towne charges, to consider and rate the seu^rall interests of all persons in the Towne Comons, according to the annuall pfitts thereof, together & with all other the reall & personall estate of the Inhabitants. And for the p^rsent charges expended in this Arbitraciōn, we do determine that it be borne & sattisfied by such as haue interests in the Comons according to this rule of divission. Ens: Hen. Philips bearing only his owne expences & of his attendance.

[Sept. 2, 1635: Mass. Col. Rec. I, 156.]

Ensigne Jennison, Mr Damforth, & Mr Willm Spencer are deputed to sett out the bounds of the newe plantacōn above Charles Ryver, against all other townes that ioynes vpon it, & each towne is pmitted to send one of their members to accompany them; also, they are to vewe the meadowe aboute the Blue Hills, & to informe the nexte Gen^r^all Court to what townes it may most conveniently be layde. [March 3, 1635–6: Mass. Col. Rec. I, 166.]

The 13th of the 2^d^ Month, 1636.

[1]Wee, whose names are vnderwritten, being appointed by the Generall Court to set out the bounds of the newe towne vpon Charles Ryver, do agree that the bounds of the towne shall run from the markt tree by Charles Ryver on the north west side of Roxberry bounds, one mile & halfe north east, & from thence three miles north west, & so from thence five miles southe west, & on the south west side Charles Ryver from the south east side of Roxberry bounds, to run four mile on a south west line, reserving the pprieties to severall psons granted by speciall order of Court.

William Spencer, Nicholas Danforth, William Jenison. [Mass. Col. Rec. I, 173.]

Ordered, that the plantation to bee setled above the falls of Charles Ryver, shall have three yeares imunity frō publike charges, as Concord had. to bee accounted from the first of May next, & the name of said plantation is to bee Deddam, to enioy all that land on the southerly & easterly side of

Charles Ryver not formerly graunted to any towne, or pticuler psons, & also to have five miles square on the other side of the ryver. [Sept. 8, 1636: Mass. Col. Rec. I, 179.]

Mr Nicholas Danfort, Mr George Alcock, & Mr Allen are appointed to set out the purchased land belonging to Dedham. And Mr Danfort, Mr Allen, & Mr Collicot are to set out the bounds between Dedham & Dorchester. [Nov. 15, 1637: Mass. Col. Rec. I, 208–9.]

Mr John Oliver was appointed, insteed of Mr Damford, who is dead, to set out the bounds between Dedham & Dorchester the 14th 3^{d} m^{o} 1638, & to set out the 300 acres for the farme wch Dedham men did purchase. [May 2, 1638: Mass. Col. Rec. I, 228.]

The towne of Roxberry is granted four thousand acres of land whear it may bee layde out wthout piudice to any plantation or former graunts, bec^{a} Dedam doth shorten them. [May 2, 1638: Mass. Col. Rec. I, 229.]

[May 8, 1638, Committee appointed to set the bounds between Watertown and Dedham. See Mass. Col. Rec. I, 228.]

The 16th of the 3th Month, 1638.

We, whose names are vnderwritten, being appointed by this Court to rectify the bounds betweene Roxberry & Dedham (together wth the lands purchased by Dedham,) have fully agreed concerning them by drawing an equall line of division by marked trees & stakes wch is corected from the southeast side of Roxberry bounds by a streight northwest line ruñing till it touch vpon Charles Ryver. Furthermore, in consideration of some straightnes at the westermost end of Roxberry bounds, by reason of the course of the river, it is mutually agreed, that a portion of medow shall belong vnto Roxberry, wch ioyneth towards the northeast vpon Roxberry, & is bounded towards the southeast by certeine marked trees from the line of division aforesaid (comprehending a narrow slip of vpland,) vnto a point of vpland on the brows of the marsh, & from thence by the northermost point of a little hillock of vpland in the marsh straight onto the ryver.

The 17th of the 3^{d} M^{o}, 1638.

Wee, whose names are vnderwritten, being appointed by this Court to rectify the bounds between Dedham & Dorchester, have agreed to strike the headline of Dorchester from a marked tree by a fresh brooke, (now comonly called Huggins Brooke,) to a certeine stake of vpon Dorchester plaine towards the top of the great Blew Hill. & to run from the stake aforesaid vpon a straight line south west to another stake at the entrance of the great ragged plaine, & there set of towards the southeast 10 rods vnto another stake, from whence it ruñeth againe, vpon a straight south west line,

to a small tree marked standing about the middle of the plaine aforesaid ; & from thence the line is varied one point southerly to a certeine stake vpon the brow of a little hill in sight, and so to run as the line of partition between the said townes of Dorchester & Dedham, to extend to Plimoth bounds.

[May 17, 1638: Mass. Col. Rec., I, 231.]

For a finall end of all differences betweene Watertowne, Concord, & Dedham concerning the bounds betweene the said townes, it is ordered, that Watertowne 8 miles shalbee extended vpon the line betweene them & Cambridge so farr as Concord bounds will give leave, & that theire bounds by the ryver shall run 8 miles into the countrey in a straight line, also as the ryver doth for the most part run, & so to take in all the land of that side of the ryver wch will not fall into the square of 5 miles granted to Dedham, & that the neck on the same side of the ryver neare to Dedham towne shalbee cast into the said square of 5 miles to make vp the same, so as the said square is to bee accounted by the quantity, & not by the scituation, because the place will not beare it & that their 8 miles from Watertown meeting-house shalbee by a line betweene both the other lines. [June 8, 1638: Mass. Col. Rec. I, 230.]

The towne of Dedham is desired to spare 2 that are most fit to go wth Goodman Woodward, & Goo: Johnson, (if hee can spare time,) or another to bee got in his roome, to lay out the most southermost part of Charls Ryver, & to have 5 sh^{s} a day apeece. [Sept. 6, 1638 : Mass. Col. Rec. I, 237.]

For explanation of a former order made the 8th of the 4th m^{o} 1638,—It is now declared, that the southerly line of Watertowne shall run to Pertition Poynt, & so vpon the same point still till it bee from their meeting house 8 miles; & that from thence their westerly bounds towards the newe plantation shalbee by a right line drawen to the furthest point of their middle line, wch is in or by Concord bounds, & from the said middle line by a line drawen to a pointe vpon their northerly line 8 miles from their meeting house ; & that the said southerly line shalbee the bounds between Dedham & Watertowne, & Dedham line to run on vpon the same point till they have taken in their 5 mile square, so as it shall not run wthin two miles of Coijchawicke Ponds, & so to bee set out by Mr Oliver, who hath already begun. To the honored Gouerne^{r} Majestrates & Deputies Assembled at the Generall Court at Boston

The Petition of the Inhabitants of Dedham Humbly sheweth

That whereas our Towne of Dedham is Scituate nere vnto a Swampe which Swampe at our first deuiding of lands in our towne was allotted out to euery man according to his ꝑportion it being then conceiued by vs to be the most speedy way of clearing & orderly improueing the same: euery man being enjoyned to cleare a certaine quantitie euery yeare. But now very lately we vnderstand y^{t} there was an order made long befor by this Hono^{r} Court y^{t} all Swamps of that quantitie should lye common which till very lately we were wholy Ignorant of: Now beinge we haue bin at charge to lay out the greatest part of it into proprieties & diuers haue bin at charg in cleareing the same we humbly conceiue y^{t} if the said Swampe should now be layed Common againe it might disturb the peace of our towne which we desire by all lawfull meanes to preserue:

Our humble Petition therefore to this Honoured Court is y^{t} y^{u} would be pleased to pase by y^{t} which we haue done in laying out the said Swamp into proprieties contrary to ye order aforesaid it being Ignorantly done: And y^{t} y^{u} would be pleased to ratifie y^{t} we haue done in disposing ye said Swamp into ꝑprieties & grant vs libertie to dispose of the residue of it as of any other lands in our towne: And y^{r} humble petioners shall be further engaged to pray for ye welfare of this hono^{r} Court etc: Eleazer Lusher, John Haward, John Dwight, Henry Chickering, Michael Powell, Anthony Fisher.

In ans^{r} to a petition of the inhabitants of Dedham For a parcell of vpland and meadow adjoyning to their line to make a villadge of, in quantity 4 miles south and north, and three miles east and west, becawse they are streightned at their doores by other tounes & rocky lands, &c. Their request is graunted, so as they erect a distinct village therevpon wthin one yeere from this day, Octo^{b} 23, 1649; & Capt Keajne, Mr Edward Jackson, & the survey^{o} gennerall are appointed to lay it out at any time, Dedham giving them a weekes warning. By both. [Mass. Col. Rec., III, 181.]

Dedham is granted so much land, both meadow & upland, on the western bounds of them, beyond the ryver, so as they erect a village there wthin one yeare fro^{m} the 22th 8th m^{o}: & that Capt Keayne, Mr Jackson, & the survey^{r} gen^{r}all lay it out at any time. Dedham giving them a weeks warning. [Oct. 17, 1649: Mass. Col. Rec., II, 283.]

Whereas there was a graunt made by the Generall Court at a session the 22th of the 8th moth 1649, vnto the inhabitants of Dedham, in answer to a petition of theires for the enlargement of the village theire, as by the sajd graunt may more fully appeare, this graunt, so made, was layd out by Captayne Robt Keaine & Mr Edward Jackson, who haue subscribed it with theire hands in manner & forme followinge, vizt: beginninge at a small hill, or iland, in the meddow on the west side of Charles Riuer, & runinge from thence about full west three miles, and then, turninge a south line, ended at Charles Riuer, at three miles & a quarter, this line beinge there shorter then by the graunt it was allowed to be, but accepteed by the grauntees, the sajd riuer is appointed to be the bounds from that place to the place where the first lyne began. This Court doth approue of this returne of the psons aboue mentioned concerninge the bounds of the sajd village, &, in answer to the request of the inhabitants of Dedha, doe order that it shalbe called (Meadfeild) p Curia. [May 23, 1650: Mass. Col. Rec., III, 188.—See also IV, part I, 6.]

There beinge a towne lately erected beyond Dedham, in the county of Suffolke, vppon Charles Riuer, called by name of Meadfeild, vppon theire request, made to this Generall Court, this Court hath graunted them all the power & priuiledges which other townes doe injoy, according to law. p Curia. [May 22, 1651: Mass. Col. Rec., III, 228.]

Whereas the Gennerall Courte, in the beginning of the toune of Dedham, graunted vnto the inhabitants thereof a tract of land, five miles square, vppon the north side of Charles River; but afterwards, vppon the laying out of Water Toune ljne, it did appeare that there was not roome there left for the former graunt made to Dedham, to lye in that square forme before expressed, where vppon another graunt was made by the Gennerall Courte, dated 22th of

the 3d month, 1639, ordering, that the sajd tract of land should be lajd out to runne along so as the foresajd quantitje should be taken in according as the place would beare; in which order, also, one clawse doth restrajne the ljne that it shall not come within two miles of Chochittawate Pondes; but now, vppon experience and testimony presented in this Courte, it doth appeare that the foresajd ponds are within lesse then two miles of Charles Riuer, by reason whereof the sajd tract of 5 miles square cannot be taken there according to the graunt,—this Court, in consideratjon of the premisses, doe order, that the foresajd clawse, restrajning the ljne not to come within two miles of the aforesajd ponds, be made of none effect, but that the aforesajd graunt or tract of land be lajd out according as the place was then capable at that time when the graunt was made, provided that Water Toune ljne be not hindered thereby. 1st: That some meet persons doe veiw the Lands & with ym agree vpon ye quantity to be granted and the bounds thereof.

2ly That ye worth of such a quantity being duely estimated The Generall Court be desired to Grant unto Dedham such Lands elce where as may be equivolent thereunto.

3dly that the Indians doe ingage to forbeare any Further incroachmt beyond the bounds, that shall bee now stated & granted & doe for ever disclaime all Title to any part of ye rest of Dedham Lands & also doe owne & acknowledge the justice of their Title.

4thly That the Indians do acknowledge what is now granted unto them (at least any more yn wt they were in actuall & imediate possession & improvement of before Dedham was Planted) to bee from the Love & Christian condesendency of ye English of Dedham & not from ye right of Any Indian Title out bidding theirs.

Vpon these considerations we hope the Brn of Dedham will from gracious Gospell principles of selfe Deniall, Love, peace, & desire to further Christs work among ye Indians & Considering how greivous it will bee to those poore natives to bee put from the Lands which they have so long possessed: be perswaded to yeild up those Lands & the rights they have yr in

Finally: considering (as wee hope Each party concerned will Consider the Temtations & difficultyes wherewth thoe managemts of such affaires (as the persons before mentioned have bin ingaged in) & are incumbred & how hard it is for any of us not to step awry, in such Agitaccōns & transactions, as alsoe the joynt & sincere Concurrence (as wee doubt not of all these or Brn̄: in the same Common, & maine ends of truth peace, justice, purity, & piety, though as to perticuler cases and wayes, we are, and must look to bee of Different apprhensions while wee are in this world wee Earnestly desire, there may bee an Exercise of Christian forbearance in these things.——. And as on the one hand wee doubt not but if any person concerned, bee Convinced Error in the prmisses they will readily, & concientiously acknowledge it, soe on the other hand if they bee not, after that Brm: have left their apprhensions & arguments one wth another, wee Conceive that in matters of this nature where any further posecution: Cannot in likelyhood bee unto Edification, they may safely beare ym & pass them by forbeareing & forgiveing one an other (Coll: 3 : 12 : 13) and continue in love & Loveing Communion for the future not wth standing. To the honnoured Court & Jury

In the Case Depending betweene Timothy Dwight Edward Richards and the Indians at Natick as alsoe in the like Case of Thomas Fuller, wee for easeing ye Court the Countrey & our selves of much expence of time, & tedious discourses crave leave to declare the grounds of Complaint to both Actions, as Plainely truely and breifly as God only wise & righteouss shall guide us, under these few heads followeing.

1 First the Grants from the Countrey are full & Cleare to the Towne of Dedham, of all the lands there Clearely includeing the lands in question as Appeares by the Generall Courts records now in question.

2^ly^. The sajd Lands are alsoe the prop right of the Towne of Dedham & soe of the plaintifs by the invitation or free Grant of the Indians as appeares by the testimony of the Reverend Mr Wilson & Mr Allen.

3^ly^ The sayd Lands are the prop right of the Towne of Dedham &^c^: for if no grant had bin from Chickatabut & the Indians there can noe more be due unto the Indians then what they had Improved before the law made Page: 40: Title Indians: sect: 2: which doth not reach the Lands now in question.

4^ly^: The tender of Dedham to the Indians of 2000 Acres was on Condition of their relinquishing of all other Claimes in Dedham elsewhere, Test: Richard Ellice Joshua Fisher Daniell Fisher Mr Allen. So that the Indians not quitting the Lands in question are legally Cutt off of haveing any Lands in Dedham bounds by the grants of the Country—2^ly^ the Grants of the Indians: 3dly the Indians not acceptanc & resting in the Townes tender of the 2000 Acres.

5^ly^: As for the Reverend Mr Eliotts Narration, & Allegations they are without probation, and therefore not needfull to bee spoken to in which wee humbly Conceive, hee is und^r^ some misap^r^hensions, for Mr Eliot hath owned the Land to be the Townes & that hee should Sinne to desire it: Test: Daniell Fisher, Peter Woodward.

6^ly^: The towne have from time to time Asserted their interest in the sayd Lands as appeares by the testimonyes aforesd & by severall respectfull lett^rs^ to Mr Eliott in which letters y^e^ great tendernes of the Towne of Dedham to the Indians & willingnes to promote the work of y^e^ Lord in his hands may manifestly appeare to the hono^r^d Court and Countrey: as alsoe by severall Test aforesd:=This is a true Copie Compared with the originall left on file as attests: Edw: Rawson Record^r^ [Mass. The declaration of the towne of Dedham and other the Inhabitants of that toune in the Case or Cases now depending betwene the Indians and them selues

first it is granted by Mr Elliat in the behalfe of the Indians. that all the Intre[ ] and right thay haue vnto the Lands in Contravercy is from the toune of Dedham and not from any other title or Intrest as appears by M^r^

Elliats oune acknowlidgment vppon record and the testimony of peter woodward Richard Ellis and daniell fisher all vppon record vnto which wee refer

Nextly to Cleare it vnto this honoured Court and Jury that dedham did neuer graunte nor Allinate the Lands in Contraversey wee declare that the toune of dedham Neuer Granted any Land vnto the Indians at all what was don by any of the toune of dedham was only a tender of two thousand Acres of Land vppon Conditions to bee pformed by the Indians which was Neuer yett pformed by them. and therfore in strict terms of Lawe all is voyde but the tender that was made was noe pt of the Land in Contravercy:- to Cleare this wee declare that the first transaction of the toune of Dedham relating vnto this was the 21th 7th mo 1650 at which time thay appoynted a Committe of Eleauen men to vew the Lands and make returne thereof vnto the select men and the toune that so thay might act accordingly for proofe of this wee refer vnto the toune record now in Court: but by the way wee declare that by the request of the reuerent mr Elliat: mr Allen and Liuett fisher went with mr Elliat to vew a place for an Indian plantation beyond dedham bounds and the same summer mr Allen and maior Lusher went with mr Elliat to vew the Lands thereabout but all this was before any act of the toune a bout it as appears by mr Allens testimony refferanc thereto being had so that what euer the discors was that past beetwene mr Elliat and mr Allen or the maior at those time relating vnto the Land in Contravercy it had noe relation vnto the toune for the toune did not Imploy them a bout it nor had any knowlidg of it as a toune. which being rightly vnderstood will fully take of and Cleare mr Elliats declaration and many Conclutions hee draws from the discors hee had with mr Allen a bout the busines and herein wee Conceaue that the reuerent mr Elliat doth much mistake himself in drawing Conclutions from thenc as if it were the act of the toune of dedham which was noe such thing but a discors betwene mr Allen and him self which doth euidently appere by his Afferming that thay began thayer toune by dedhams Consent and Loue and approbation for sayth hee wee Ask it by mr Allen and Josh fisher and sayth hee mr Allen returned the Answer of Aprobation now Called Inclination and that mr Allen Loueingly went with them and Choose the place for thayer meeting house:- but all this was before the toune of dedham acted any thing a bout it or had any knowlidg of it as a toune which shews mr Elliats great mistake in taking what discors hee had with mr Allen and Josh Fisher for a toune act. which is Cleare from his 4th pticuler in his last decleration for sayth hee the date of that meeting where in dedham moued shews that it was a yeare after thay had Consented to thayer sitting doune there. which euidently shews that mr Elliat took or mistook the discorse hee had with mr Allen and Josh: Fisher for the tounes Consent whereas the toune had not then herd of it nor acted in it as a toune. and mr Elliat sayth in his 5th pticulor that the first:

yeare thay planted orchards and fenced Lands: which was very true thay did so before dedham had any knowlidg of it as a toune which makes thayer Complaint to bee the more Just and thayer damage the greater Nextly wee Cleare it farther by the Voate of the toune bearing date the 27th 8th mo 1651 which did Impoure Liuett Joshua fisher and Sargent daniell fisher to treate and act in the busines with any whom it might Concerne as may there appeare referenc there to being had vppon which thay in the behalf of the toune made a tender of two thousand acres of Land vppon Condition that the Indians should Lay doune all other Clames of any Land within the toune bounds and forbere setting of traps &c now this Land thus tendred by them was on the westerly end of thayer bounds on the north side of the riuer and not any vppon the south side which thay doe Improue and that the Land thus tendred was in that place see the testimoney of Liuett Josuah fisher and Ensigne daniell fisher farther wee declare that this was the tounes order that the Land tendred should Lye at the westerly end of our bounds on the North side of the riuer and not on the South side as fully appears by the testimony of mr Allen maior Lusher Liuett fisher Ensigne fisher aud Sargent Ellis all on record vnto which wee refer: which being duly Conciddered will fully remoue and take of all mr Elliats pleas in the behalf of the Indians that the place was Illimited and therfore thay might take that which thay did: but it doth plainely appeare by the abovsaid euidences that the place was Limated to the westerly end of the touns bounds on the north side of the riuer and not on the south side and one Condition of the tender of this Land on the north side of the riuer was that thay should Lay downe thayer Claime on the south side which thay had taken posesion of Contrary vnto the tounes minde and aprobation but it will bee alleged that the record of the Genarall Court semeth to Contradict what is a bouesaid: vnto which wee Answer that wee humbly Conceaue that it noe way Contradicts what wee haue said but for that record wee must declare wee had noe hand in it nor knowlidg of it which will fully appeare by mr Elliats oune afirmation or answer which hee Calleth his euidences in sextion the third to which wee refer where he sayth it was his petion and that the Courts order was in Answer vnto his petition and farther wee refer vnto what the secritary sayd in Court that it was recorded it in Answer to mr Eliats petition which fully shews that wee had noe hand in the recording of it and therefore noe reason that any plea vppon that accoumpt should preiudic vs. but to the record it self it only sayth that wee tendred two thousand Acres vppon the Conditions there expressed but doth not say where only within thayer bounds but although the record be silent in it yet the testimonyes fully proue that the place was Limeted and the record Clears it that thay were to lay doune all other Claimes but the two thousand Acres tendred and therefore this Land in Contrauersey and it may euidently appere from that record that this Land in Contravercy was noe pt of the two thousand acres tendred because by

that record it doth appere that there was a Committie appoynted to Concidder and act farther therein that incase m^{r} Elliat desire more Lands that then thay were to moue thayer tounes a bout it to allow Lands in way of exchainge which neuer was don nor any other satisfaction tendred but for the tounes Long sufferanc and forbearanc in not prosicuting the Indians vntill now its noe Just ground of m^{r} Eliats of drawing such Conclutions from it as hee doth but our delaye was in order vnto the honoured Genarall Courts plesure by thayer Comitties appoynted from time to time to Issue that Case by giuing vs satisfaction otherwayes which appers to bee the Courts order that wee should bee satisfied but wee doe declare that wee haue often Asserted our Intrest from first to Last as playnely appears by seauerall transactions of the busines vnto which wee refer and might Abundantly more Clere but it would bee to tedious and wee doubt not but it is well knowne the premises being duly Conciddered wee doubt not but it will euidently appere vnto this honowred Court and Jury how much wee haue suffered and that the Last verdict was Just in giuing vs our Lands and hope that this honoured Court and Jury will see Just Cause to Conferme the same all which wee Leaue vnto the wise Concidderation and rightious determination of this honoured Court and Jury

Joshua Fisher Daniell Fisher in the behallfe of the Towne of Dedham
Timothy Dwight & Edward Richards

[Mass. Arch. XXX, 24, 25.]

Natik case drawen up in defence of the pore Indians of Natik in theire rightfull injoyment of theire houses orchards cornefeilds & other labours, against the Towne of Dedham, who sued them at Court to take them away frō them, & drive them into the untyld wildernesse, to begin againe.

In the case I p^{r}mise 2 things. 1 these lands ly about 7 or 8 miles off from Dedham, I suppose it to be about 8 miles betwixt the meetinghouses of Dedham & Natik, & the lands sued for ly close by Natik meetinghouse 2 about halfe the Towne of Natik, or more, are seated upon the lands sued for, (as appeareth in the catalog of the Towne, given into the Court, upon the comand of Authority) who have many fruit bearing orchards, corne feilds, & some buildings there.

I open the whole case in. 11. propositions

pp: 1 These lands lying w^{t}hin the lines of Dedhams grant by the Gen: Court, our first motion was, to request Dedhams love & consent, for our siting downe at Natik, to make a Towne, where some of the Praying Indians then planted, & had done of old, even beyond the memory of the oldest man alive, I requested m^{r} Allin & leiften: Fisher to move it to the Towne, & giue me a speedy answer. Mr Allin returned to me an answer of appbation & consent. wherupon we pceeded to begin our Towne, this was in the spring 1650.

By a warrant I called m^{r} Allin to testify this in Court. viz. this consent

of Dedham. his testimony is in the Court, wherin he is pleased to call it, an inclination in Dedham that it should be so.

To wch I answer, there be several degrees of inclinations, & a strong inclination or bent of heart, is equivalent to a consent. and such was the inclination of Dedham towards this work, wch I doe thus make to appeare

1 some of the cheif of Dedham went wth us to veiw the place, & did appve of it, fit for the purpose, viz. for the Indians to erect a Towne.

2 m^{r} Allin chose the place of our meeting house, where now it standeth.

3 so many of Dedham as I spake wth (& that was many, I oft passing through the Towne to Natik) they blessed the work, & rejoyced wth thankfullnesse to God that they should have an hand in so good a work, by parting wth some remote lands to further it

4 after a years consideration, they did freely give 2000 acres to the incouragment of the work, & if more were needfull. they would part wth more, on condition of the concurrenc of other Townes. &c. as appears in the Court record.

such, & no lesse was Dedhams inclination in those times.

ppos. 2. In this first yeare we layed out lots, planted orchards, & that first winter fenced the two great feilds, wch are now sued for. for pf of w^{ch}, my oath is in Court for evidence, & if it be needfull you may have many evidences more, it being so publik & knowen an act.

ppos. 3 The yeare after our begining, Dedham gave 2000 acres towards the work. And theire title wch they had by the donation of the Gen: Court, they did alienate from themselves. & give it to the Towne of Natik, through the hands of the Gen: Court. who did expressely accept of it, & ratifyed it by a publik Record, so y^{t} these lands belong to Natik, not to Dedham. all this is evident in the pub: record. & this was done in the yeare. 51.

ppos. 4 These lands now sued for, are part of these 2000 acrs, thus given & ratifyed to the Towne of Natik. wch I thus pve

1 because we had began the Towne upon them, & had fenced, planted orchards, & cornefeilds, & that with Dedhams knowledg & appbation, as abovesaide, before they gave us 2000 acrs towards the work. we began in. 50. they gave these lands to the Towne in 51.

2 if theire gift had not included our present beginings & possessions, they ought then to have excepted them, theire silenc then, is a consent for ever after

3 a great comittee chosen by Dedham, of many of the cheif of Dedham, came up to Natik to veiw & order our bounds. my selfe & others of Roxbury were wth them, we road over those lands now sued for, we passed by our fenced feilds. & this company did to our understanding, confirme our possession of these lands (among other acts) by this, y^{t} they sent two of theire company to the head of the myry brook (wch was to part the townes, wth a line from thence west, to the great River) that they might see what they part

wth. they brought back word, that they should still have a good spong of land up to the River, betwixt the lines of Natik & Meadfeild. wch answer seemed to us contentfull to the rest of the company. Ensigne Fisher, who was one of the two above named, acknowledged the substanc of this in last Court. if that sufficeth not for evidenc I desire he may have his oath. this was as I remember, in the yeare. 52.

4 they did not assigne us any other place where to have the 2000 untill the yeare 59 or 60. after we had possessed these lands the space of 9 or 10 years in manner abovesaid.

5 the Court record of the gift of 2000 to the Indians, doth include our p^{r}sent possessions. wch I prove

1 because the Record saith. they tendered the furtherance of the work in hand & these possessions were a cheife pt of the p^{r}sent work, to fenc & plant, &c.

2 because in the Record there be other conditions, about land wch the Indians were to leave to Dedham. but not a word of this land, where the towne was allready begun.

3 because they suppose theire 2000 acrs may be sufficient, if not they offer more, upon condition, therefore they expressely include these lands upon wch the Towne was allready begun.

ppos. 5 wheras here be sundry oaths in Court, that at that meeting when Dedham gave the 2000 acrs, they had speech of confining them unto the west corner, and others say it was theire meaning so to doe. I answer

1 it may be so, but when Dedham transacted wth the Gen: Court, there was no such matter spoken, agreed on, or recorded. private discourses or intensions, are not the guide of Justice in this Case, but publik transactions & records.

2 what was spoken at Dedham that way, was not wth a purpse in the heart of Dedham, to remove the Indians frō any part of what they possed at Natick but as a motive to the people to presse for the concurrence of other Townes that y^{y} migt obteine for y^{m}selves some lands in Roxbury & Dorchester wch ly neere their skirts.

3 I never heard a word (to my knowledg) that way, to deny the Indians these lands, till divers years after, & I have reason to think, that they had no thought or purpose of dispossessing the Indians, until a temptation did arise, wch did not arise till divers years after. & w^{n} it did arise, it did not arise frō the Indians, I know not that they gave Dedha many cause to deale so hardly wth them. nor did the temptation arise from me.

ppos. 6 Those men who sue the poore Indians for these lands, have no just title to them. wch I thus pve.

1 theire title is by a gift of the Towne of Dedham in or abont the yeare. 60. but we have title to them from Dedhams gift in the yeare 51 about 9 or

10 years afore. Dedham cannot give them a title, having given it to Natik before.

2 theire title is only by an act of the Towne of Dedham among themselves. our title is by an act of Dedham in the Gen: Court, & there Recorded.

3 theire title is by an act of Dedham, when matters were blowen up to a temptation. but our title is by an act of Dedham, before matters were in such a temptation.

ꝑpos. 7 being necessitated thereunto, I shall make use of a plea, wch I would willingly have concealed, and it is this. That these lands whether Dedham indeavour to thrust the Indians, & w^{ch}, in the yeare 59 or 60 were by Dedham men laid out for the Indians, I say, these lands, or a great ꝑt of them, Dedham have no just or lawfull title unto, before God or man. wch I thus ꝑve.

1 It is proved in Court, & publikly knowen, & confessed by Dedham, that Natik Towne began in the yeare. 50.

2 Dedham doe give into Court, the evidenc of theire title to these lands, to be a gift of the Gen: Court in the yeare. 51. at wch time they petitioned the Court for them, as seemeth by the recital theroff in the record. & henc it is evident)

1 that they beged these lands on the North & west side of the river the yeare after Natik was begun, & sat upon part of them. and the Court granted them, as appeareth in the Record. but unknowingly.

2 because all Court grants of lands have this condition either exp^{r}ssed, or, if not, yet by the law of the Country, it is implyed, that the grant is on condition, that they p^{r}judice nó other towne.

Now these lands granted in the yeare 51. being so evidently p^{r}juditial to the Towne of Natik wch was begun in the yeare 50. henc I plead that this grant is voyde, both by the law of God, of the country, & of a good conscience.

3 Dedham never ꝑcured to themselves the Indians right, who have lived at Natik longer then the oldest man alive can remember, & being (through grace) now praying Indians. they have, in a sollemne fast, given up theire right in these lands unto God, here to begin a Towne, & gather a church. & this was done in the yeare 50. the yeare before they were granted to Dedham, & this act of the Indians was not unknowen to some of Dedham. henc also I plead that theire title is null.

ꝑp: 8. It pleasd the w^{rp}full Court, w^{n} they comitted this case to the Jury, to give theire sence of the Case, & comended unto the Jury two considerations more, wch I am bold now to plead.

1 Touching the Indians right. our right we hold (said the Court) by o^{r} lers Patent frō the Kings Ma^{ty}. & by our coming into vacuum domiciliu^{m} where we so find it, but where the Indians have a rigt, we doe religiously

take care, that it be lawfully alienated, wch we doe not see evident touching these lands in question.

To wch plea, I ad my answer to Dedhams plea, that they hold them from the gift of Chikkatabuk, in that agreement in Dorchester meeting house, wth o^{r} hono^{r}d Govno^{r} Mr Winthrop, & other Magistrats. I answer

[1] 1 these lands in question (viz on the south side of the river) were not under Chikkatabuks Jurisdiction. but were a peculiar hunting place, belonging to another great Sachem named wompituk, whose daugter Chikkatabuk maried, & by her had this sonne, now called wompituk alias Josias, & this right or previlidg is descended to him, by his mothers side, & was not any part of his fathers right. Now Josias, alias Wompituk, did in the yeare 50, when we had nothing but love & incouragment from Dedham, I say, he did solemnly in Gods p^{r}senc, give up his right in these lands, unto God, to make a towne, gather a church, & live in civile order in this place.

2 and furthermore I answer, I was p^{r}sent at the abve named meeting in Dorchester meetinghouse, & I doe remember both the ocasion of the meeting, & the substanc of the agreement. The Indians wonder to see the actings of the English herein. & they see themselves to be greatly overreached, if that agreement be extended, to take away theire lands at such a distanc: concerning w^{ch}, there was not (to theire knowledg) one word exp^{r}ssed, nor a thought on theire parts of any such meaning. yea it is contrary to the expresse words of the agreement, as I can prove, if need were.

And this I make bold to exp^{r}sse in it. Such as have peace in making this agreement a ground of a title by v'tue wheroff, to thrust the poore Indians out of theire possessions & labors at Natik, I desire not to share wth them in such a peace. & I am ꝑswaded, if worthy m^{r} winthrop, who made that agreement, were now alive, he would resist such actings wth indignation, as, blessed be God, o^{r} present Rulers doe.

2 The 2^{d} consideration wch the Court were pleased to put unto the Jury, was this, that it being ꝑved in Court, that the Indians were possessed of these lands in the yeare 50. & being so remote from English Towns, the law made in the yeare 54 to stablish the Indians in the possession of such lands as they had improved, doth give them an orderly & lawfull title to them, by the Gen: Court. they having fenced, planted orchards, & corne upon them.

ꝑpos. 9 If these lands now sued for be taken from us Natik is overthrowen frō being a Towne, wch I doe thus demonstrat.

1 our meeting house & other publik buildings are lost & uselesse to us. for if we should remove 2 miles further as they would have us doe, can it be reasonable to goe 2 miles every Saboth & lecture, only for a meeting house? will it not eat out religion? is it not necessary that meeting houses, & school houses be in the midest of a Towne?

---

[1] The deeds from the Indians to the Town were given in 1680–1685. *See Introduction.*

2 if we be put away from hence, we have no whether to goe for the being of a Towne, for

1 up by the river we cañot goe, for there m^{r} Bradstreet hath taken away 800 of our next best land. if we loose this, as the Court knoweth.

2 verging more to the west, is a tract of barren land, fit for no such use.

3 if we goe westerly, where Dedham would have us goe; betwixt us & the ponds, wch are not 3 miles from us, there is an old grant of 1000 or 2000 acrs I know not w^{ch}, ancienter then Natik, wch Dedham are not ignorant of, but know. and so we shall be thrust into new troubls. wch we are weary off.

4 if we should goe over the Ponds to sudbury plaines, the Indians say that since our line was run for Natik bounds, there is 800 acrs of the best of those lands laid out for Mr Russel. So that if you put us frō Natik, we have no whither to goe, to make a Towne.

3 these actings of the English, doe make the prophane Indians laugh at the praying Indians, & at praying to God, as I heard wth my owne ears at Conecticot, wth respect unto Ogquonikongquamesit, wch is in effect overthrowen, some gone as I am informed to one place, some to another, some to the non praying Indians among theire kindred, others know not what to doe. to Natike they dare not come because of Dedhams actings. Now if Natik also be overthrowen, let wise men looke upon the consequences, in respect of God & man.

ꝑpos. 10. Though we are loath to loose our orchards, who never had any before, & our other labours, yet we doe not of o^{r} owne heads stand out in these suits at law. but we act by good counsell & advice. for Major Atherton did thus advise us, that seing we were put into the possession of these lands by Order & Government, we ought to keepe our possession, untill Government doe otherwise order us. the same counsell did others give, in the case. twice a Conncil sat on this case, & did order us to injoy these lands, the first siting. & when it was delayed, they advised us. the 2^{d} siting, to hold them untill Government should determine the case. & if we would have removed we knew not whether, to be quiet. Dedham did not assigne us any other place untill the yeare 59 or 60. & we knowing the intanglements, & inconveniences of that place for a towne, we have no heart to it, & therfore we know not what to doe. but we beseech the honoured Court to doe us justice, & to deale kindly wth us for Christ Jesus sake.

ꝑp: 11. lastly I desire to be satisfied better then yet I am, about the Jury of the last County Court, for sundry of theire actings.

1 because the poore Indians were sued in 3 actions of the case. & the Jury heard but one of them pleaded, yet I heare, for I was not ꝑsent, they brought in 3 distinct verdicts, before they heard the defendant speake unto two of the cases.

2 if they say that m^{r} Cooke, pleader for the plaintif, said in the Court, all the 3 actions are one case, I answer

1 only the plaintiff said so. & if so, why did they make 3 actions, & 3 v'dicts of one case?

2 & how could they bring one v'dict for the plaintiff an other for the [defendant], if it were but one case, & to be decided by evidenc, & not by arbitration;

3 if they say it was an action of reveiw, & therfore they had the defendants plea, wch was in the former Court. I answer, the first & 2^{d} actions were upon reveiw, & the former Court found both for the defendant. and this Jury hath found one of them for the plaintif. thoug both be one case as the pleader said.

but the 3^{d} action was not upon reveiw, but a new action. & there passed not one word in publik about it, that I know off, neither by the plaintiff nor by the defendant. yet the Jury brought in a v'dict for the plaintif. but where they found it, I cañot conceive, hearing no pleading of the cause in publik, unlesse it was by private dealing.

an epitomie of the case

1 we began the Towne in this place wth Dedhams knowledg & appbation, as abvesaid in the yeare. 50.

2 Dedham gave to Natik Towne 2000 acrs, wth full title, in Gen: Court. there recorded, in the yeare. 51.

3 These lands on the south side the river, & all the rest sued for in the 2 first actions are part of the 2000 acrs, thus intitled to Natik.

5 they that sue us have no title, because Dedha could not give them a title 9 or 10 yeare after they had given it to Natik.

6 Dedham have no lawfull title to a great part of the west side, where they would now lay the 2000 acrs. because they beged it, & the Court granted it the yeare after Natik was set downe upon it.

7 Dedham never pcured to themselves the Indians right to any of these lands sued for. but the owners have sollemnely given theire right in them, to the Towne of Natik in the yeare 50. & that before Dedham moved about it.

8 Natik is undone, if these lands be taken away.

The testimony of Joshua Fisher aged about 40 yeares.

1650. I being Desired by Mr Eliot to goe and shew him the out side of our bounds to see if there might not bee a place founde Convenient for a plantation for the Indian accordingly wee veiwed the Land and found not a suiteable place but as wee returned Mr Eliot desired Mr Allen and my

selfe to move the towne that they might have some Land, about Natick which accordingly wee Did, And the Towne Did declare y^{m}selves willing to further the work; by parting with 2000 Acres At the westerly end of our bounds upon the North side of the river And alsoe if the Towne might have Lands Neare Adjoyneing to the Towne out in Dorceister and Rocksbury they were willing to have parted with more for the Indians Inlargem^{t}, but the 2000 Acres were tendred upon Condition, that all other claimes wthin o^{r} Towne should bee layd Downe, but for the Land on ye south side the River the Towne refused to part with any to ye Indians, app^{r}hending they Could not spare it, & that the Indians had more then they Could improve well, in the 2000 Acres it being a Tracht of very good land for improvem^{t}, but ye Towne from Time to time have sent to the Indians & m^{r} Eliot to forbeare improvem^{t} on the south side of the river, and for the North side the River beside the 2000 Acres above mentioned. the Towne from time to time, declared unwillingnes to part wth any wthout Due recompence, & Divers motions being made to Mr Eliott that the case might come to An Issue but could by no meanes attaine it whereupon when the Towne heard Mr Eliot was About to Erect a Mill, about a Mile this side Natick, the Towne sent to him to forbeare, till he might have the approbation of the Towne: but notwthstanding hee went on with the work, to the offence of Divers, afterward Mr Eliot met with mee and told mee hee had thought of a way which hee hoped would sattisfy the Towne which was to give the Towne forty pounds worth of board which he expected he should have Cutt at his mill, but that motion did not sattisfy the Towne, The Towne seeing all other meanes faile had thought to have a tryall in the law about it, But Mr Allen moved that wee should forbeare yet a while to see if he might issue it some other way, but it Could not be Attained, then afterward in a Generall meeting of the Towne they expressed themselves not sattisfyed, that ye Indians went on improveing their Lande contrary to their minde they Did then resolve to make improvem^{t} of it themselves if the case depending betweene Mr Eliot the Indians & the Towne were not issued wthin three moneths whereupon I was appointed to give m^{r} Eliot Notis of the vote of the Towne, wch accordingly forthwth I did and intreated him y^{t} if hee did desire to have any of the land besides the 2000 Acres, that hee would use some meanes to the issue ye case before the time that the Towne had sett for the issue thereof were expired, but Mr Eliot Answered he should doe nothing in the case but pray, & if the Towne would make use of the land, the Indians should bee passive in ye Case & such like words, but the Towne Did still delay a considerable time, after the three moneths was expired waiteing what might bee presented in the Case, but nothing appeareing to sattisfaction, they went on with the Divident and layd out that Land wth Divers other parcells to the inhabitants for improvem^{t} thereof: Divers complaineing that they suffered much for it not being done sooner In which tracht of

Land the Lotts of the Plantiffs by Gods providence were Cast. Endorst to the testimony on the other side: Daniell Fisher testify the same for ye substance of it: excepting the first discourse & Mr Eliotts tender of 40£ pounds in boards to bee Cutt at their saw mill.

The deposition of Mr John Allen Pasto^{r} of the Church of Dedham aged about: 64 yeares.

Being Called by Authority of this honno^{r}d Court to give my testimoney, in a Case, or Cases depending, betweene Timothy Dwight Edmond Richards; & Thomas Fuller of Dedham: on the one party & the Indians of Natick of the other party, concerneing certain Lands possessed by the Indians there, & haveing had knowledge of ye transactions betweene the sayd Indians & Towne of Dedham, from the begining, I Doe affirme & testify as followeth—

1: ly. In the spring 1650 at the request of the Reverend Mr Eliott Livet: Fisher, & I went wth him to seek for a place for the Indians to make a Towne beyond the bounds of Dedham: Leiut: Fisher shewed mee two marked trees of o^{r} head lyne, about two myles beyond Natick Hill as wee Judged, but noe place beyond that being found fitt for their purpose as wee returned homeward Mr Eliott moved us to request, o^{r} Towne to grant them a place wthin o^{r} Towne

2 ly. Secondly in the same sum̃er Mr Eliot desired Capt Lusher, and my selfe to goe with him to take a further view of that place and then Desired us to mediat with our Towne to grant our Lands about Natick unto a brook about amyle on this side Natick Hill & alsoe to grant some of o^{r} Lands on the other side of Charles River: This request being propounded in a Towne meeteing the Towne appointed some men to veiw the place, and at another meeting Did Consider, & discourse of it, but made no vote or Act about it, yett by the expressions of many I Conceived that most were inclineable to the motion, on Natick side, on the North side of the River, but for his Demand on the south side it was alleaged that it was the fittest place to turne of horsses & loose Cattell that the Towne had & that the lands on ye other side were sufficient for the Indians, or if need were the Country might Adde more, & therefore the Towne refused to yeild any thing there, these things I informed Mr Eliot of, besides this request, there was a further Motion made to the Towne by some other from Mr Eliot; viz; that ye Towne would grant Lands alsoe to a place A mile nearer o^{r} Towne on this side the afore sayd Brooke which Also upon good Reasons was refused.

3ly. After the towne had refused to Grant any thing on ye south of the River, or to yeild to his last motion, I heard no more frō Mr Eliott by way of request to the Towne, but hee told mee y^{t} Josias the saggamore, had sollemly Given up his right to the Lands on the south of the River & an old woman her rights of Natick to the Indians work & thereupon he had Divided out Lotts on both sides to severall Indians, being troubled at this I told him that Josias had no right there, for wee were certified from Mr Winthrop That (Chickatabut) his father had given all his right on the south of the River to the English, and Also that John Sagamore of Mistick, had given up his rights to the English on the North of the River. To the truth thereof the Reverend Mr Wilson of Boston did Also give testimoney, as after I told him.

This Act alsoe much offended the Towne as tendeing to weaken there intrest in all the rest of the Lands, and therefore forced Divers times to forbid the Indians proceedings on the south side of the River ——: Further I doe testify that the Towne hath bin very solicitous to end this Controversy in a peaceable, & Loveing way, & haveing tried Divers wayes in vaine after much patience five or 6 yeares agoe they intended to try the title by a

Course of Law, as seeing no other way whicn when I heard of I desired liberty first to try if Mr Eliot would accept of a reference to some Judicious freinds to Judge of the Title to these Lands in question as a Case of Concience; whereupon the towne did forbeare a tryall at Law, hopeing I should prevaile in my motion—But Mr Eliots Answere was That ye Indian Title was Fitter to be judged of by the Commissione^{rs} of the Colonyes then by such a Councell by which I perceived he still stuck to the Indian Title.

When this other meanes used Could not p^{r}vaile neither to stopp ye Indians proceeding upon the Lands in question nor to obtaine a cleare acknowledgem^{t}: of the just Title of the Towne, to these Lands, the Towne being about to make a Generall Dividend of their improveable Lands Resolved to taken these Lands into ye said Dividend whereby it became the right of perticuler psons whose lotts are fallen there,

I liveing in Dedham from the begining of the Plantation to this time, tooke notice of a motion made by Mr Allen & some others of the commendation of the Indians of Natick with some Land out in Dedham bounds, vpon the agitation of the case, the Towne yeilded to part with two thousand Acres of Land on the North side of Charles River, At the west end of the bounds of Dedham, and alsoe expressed y^{m}selves willing to accomodate the Indians with more Land upon the North side of the River if it were needfull, & desired upon due sattisfaction for the same, But when there was motion made

for to part with Land on the south side of the River to the Indeans, The Towne have from time to time Expressed themselves vnsattisfied wth the Indians Improveing ye Townes Land wthout their Consent, and the Towne alwayes exprest themselves that the Two thousand Acres was tendred upon condition that they should lay downe all other Claimes wthin our Towne bounds Further I have heard Mr Eliot owne that the Title of the Land was Dedhams and that hee Did not Desire any of Dedhams Lands without due sattisfaction, and sometimes upon discourse with some of the Cheife Indians Att Natick about their illegall improveing of o^{r} Land, their Answere were that Mr Eliot did incourage y^{m} soe to doe, or elsse they would not have done it, Further that the Land now sued for, & possessed by the Indians is noe part of the 2000 Acres tendred to ye Indians of Natick by Dedham

To the honno^{r}ed Court Assembled at Boston

I am Credibly informed y^{t} my testimony upon oath given in to the last Court by m^{r} Eliott was impached whoe Affirmed that I was not pleased to speake fully to ye thing hee desired, and y^{t} I had sayd before all the Elders in the little Chamber of that house, y^{t} ye Towne of Dedham did Consent, y^{t} ye Indians should sitt downe at Natick, unto ye brook there, as is also affirmed in his paper given in to the Court these things are directly Contradictory to my sayd oath, I haveing sworne to speak the whole truth, and affirmed y^{t} there was all I Could, or had sayd, this Also tending to hinder the Course of justice In the Case depending. I finde my selfe deeply ingaged to Cleare up what is the truth in this matter, to which end at a late generall meeteing of ye Eld^{rs} at Boston I earnestly desired, and urged m^{r} Eliot to pduce any of the Elders to prove what hee had sayd; But hee wholly refused soe to doe whereupon I Indeavored at a time of Leysure to put my selfe upon the triall before y^{m} all, but I was interrupted by one that recalled us to ye Publique occasions: After this I propounded the Case to ye neighbour Elders mett at Boston, and haveing read a true Copie of my sayd oath I desired them, one by one, to testify whether I had sayd in that little chamber y^{t} the Towne of Dedham Consented to the sitting downe of the Indians at Natick unto the brooke there, as m^{r} Eliot affirmed, to wch Divers Answered y^{t} they remembred nothing of it, one of y^{m} remembred ye place & time of o^{r} discourse, but objected nothing against my testimoney. Mr Mayo: sayd hee remembred the place & time of y^{t} discourse, & that my speech was to this effect: That ye Towne of Dedham refused to grant any Lands on ye south side of Charles River: But might have bin perswaded to yeild to Mr Eliots desire on the other side, had not Mr Eliot interrupted that motion by

setting up an Indian Title: To the same effect also Mr Danforth of Rocksbury declared himselfe, both which (I doubt not) will Attest ye same if called thereunto: To w^{t} is sayd of Mr Eliotts fayleings in his pfe & ye positive testimony of: 2: Elders agreeing well wth the Teno^{r} of my oath I shall Add further that ye Consideration of Mr Eliots Practise whoe about a yeare after the Indians came to Natick gave over his motion for any grant from Dedham, And in a very sollemne manner sett up a pretended Indian title to the Lands at Dedham on both sides of the River & neglecting any title from ye Consent of Dedham, he layd out severall lotts on both sides upon the Indian Title as himselfe declared unto mee which Course, had bene vaine, & needles, on the north side if hee had from mee such a declaration of the townes Consent as he now Alleageth what wise man would runne the hassard of soe great a offence to ye Towne of Dedham, & the English in Generall haveing such a consent of Dedham as hee p^{r}tends, these things being so: (w^{ch}: upon the oath I have formerly taken, I doe sollemnely affirme to bee the truth My humble & just request is that those things suggested by Mr Eliot without any proofe may not bee received, to the p^{r}judice of the Credit of my sayd testimony & oath nor to the obscureing of the just Title of ye neighbours of Dedham to the Lands in question so far as my testimony give evidence thereunto.

For a finall issue of the controuersy betweene the toune of Dedhame & some particcular inhabitants of the sajd toune & the Indians at Naticke, the Court, having considered the pleas & evidences p^{r}sented by both partjes, and finding that although the legall right of Dedham thereto cannot in justice be denyed, yet such haue binn the incouragement of the Indians in their improovements thereof, the which, added to their native right, wch cannot, in strict justice, be vtterly extinct, doe therefore order, that the Indians be not dispossessed of such lands as they at present are possessed of there, but that the same, wth convenient accom̃odations for wood, & timber, & highwayes thereto, be set out & bounded by Mr Thomas Danforth, Mr Wm Parkes, Mr Ephraim Child, & Mr Edw Jackson, or any three of them, who are hereby appointed a com̃ittee to execut this order, and that the damages thereby susteined by Dedham, together wth the charges expended in suite about the same, be also considered & determined by sajd com̃ittee, & such allowance made them out of Naticke lands or others yet lying in com̃on as they shall judge æquall, & apoint, making report to this Court the matter of charge, that so the Court may determine where to lay the same or any part thereof. Boston: the: 25th: of nouember: 1662:

Wee whose names are vnderwritten, being Appointed by the Honnored Generall Court, in may and october last to Consider of the difference betweene the Towne of Dedham & the Indians of Natick vpon our view of the Land doe find that the sajd Indians, being about sixty Families are setled, & haue planted vpon both sides of Charles Riuer & haue fenced & broaken vp two great Feilds, & seuerall lesser Feilds, which wee Conceiue may Containe Fowre Thousand Acres, or thereabout with what lyeth vnbroaken vp within the Limmitts of the Cercumference of their planting, they being scattered & planted in seuerall Tracts of the sajd Land, now the Order of Court being doubtfull vnto vs, about the word possession, wee therefore know not how to determine, But wee Conceiue that if it bee intruded that the Indians, shall bee Continued a plantation they Cannot haue less then the sume of Fowre Thousand Acres of Dedhams Land, for the Common Land that is giuen to them by the Country is soe remote from them that they Cannot improue it, & soe meane & bad withall as wee are informed, that it will not bee for their vse, And the Quantity of the aforesajd Land of Dedham is as little as may bee for soe many Families for any Considerable time, And wee Conceiue that the sajd Land should bee thus bounded, vizt: vpon the south side of the Riuer for the East line, to begin at a bent of the Riuer, that may bee about 70: or 80 Rodds from the Corner of the feild, & to come within tenn Rodds of the fence, as it now standeth vpon the East side of the feild, vnto the vpper End of the feild, & at that Angle to goe Tenn Rodds to the south from the fence and there to turne to the west vpon a straight line to the Riuer, & vpon the north side of the Riuer, to begin where the line is, at the West side of natick for the 2000 Acres layd out by Dedham, & to runn to the Pond vpon the north East from natick, & from the brooke Running out of the Pond, East & by South to the Riuer & the Riuer to bound vnto the bent aforementioned, For the which tract of Land Containing about: 4000: Acres wee Conceiue that the Towne of Deadham should haue satisfaction out of the Common Lands of the Countrey, if they cann find that which is to their Content, otherwise that they bee allowed the sum of 500£ starling, to bee pajd by the Country by 100£: p Ann:

an answer to Mr Jackson his testimony

1 Mr Jackson saith. (we have seene the differenc & stated the bounds of the easterly line, to be as formerly laid out, returned, & recorded)

A this is well, I desire no other determination. the same he reporteth in the conclusion–wch I also accept off.

2 againe Mr Jackson saith (to come frō the river, & to run Sotherly, upon the east side of the Indians feild. about 10 rods w^{t}hout the fenc.

A. this also is right & true. & I accept it. it confirmeth the truth. some other things wch m^{r} Jackson saith, are dark, I understand y^{m} not.

3 all he saith of the bent of the river, where the record begineth the line in question, wch place of begining is the only thing in question he saith they remember not y^{t} they ever were at y^{t} place.

A. memory may easyly faile in 7 or 8 yeare about a place y^{et} never saw before, nor sinc, till now. but let the record, & sight of the ey judg. for the record sayth (to begin at a bent of the river) 1 the river is not at the place wch Dedham would begin at. it is almost 20 rod frō it. 2 the river is not to be seene at that place. & 3^{ly} there is not a bent of the riuer at that place, & therfore y^{t} cañot be the place of begining. But all these things are evident at the place w^{c}h the Indians stand for.

2 m^{r} Jackson doth rightly (according to the record) make but one right line frō the bent of the river to the south angle.

I doe freely submit to this demonstrative determination, upon ocular view. if o^{r} bent of the river stand not, in a right line. (halfe w^{c}h line is agreed on by marked trees) we will cease our claime. if the place Dedham challeng stand not in a right line (considering a great pt of the line is all-ready agreed on) y^{n} let y^{m} cease theire claime, & the controversy is ended.

A petition to the General Court, setting forth the grievances of the Indians, and asking redress, dated 1669, and styled,

"The humble petition of John Eliot, in behalf of the poor Indians at Natick. Showeth, That whereas, this honored Court did appoint a committee to fix a line betwixt Dedham and Natick, bounding on each other, viz.: the worshipful Mr. Ting and Jackson, Dea. Park, and Lieut. Cook, of Boston, who took pains in it, and the record of their determination is accepted and put into Court records: nevertheless some of Dedham do invade our line; upon one side, they forbid the Indians to plant, take away their rails which they have prepared to fence their grounds, and on another side have taken away their lands and sold ym to others, to the trouble and wonderment of the Indians. These are humbly to request this honored Court to empower the same worshipful committee, and request you once more to take pains and go to the place wt ye have already done, and request our brethren of Dedham to be quiet and let us peaceably enjoy our own. So committing this honored Court unto the Lord and to the word of his grace, I remain your humble petitioner, John Eliot."

Rev^{d} & loved in our lord

According to your desyre. Having received a coppy of y^{r} letters to y^{r} Hon^{d} comitty I shall giue my sence upon it. It is matter of greife y^{t} you should thus troble yourselfe, ye Hon^{d} Comittee, & others not resting in ye late confirmation of their owne act & upon reasons so inconsistant wth ye record. To your 1^{t}. ye record is plaine y^{t} ye east line is to run from ye bent of ye river 10 rods from ye fence of ye feild & so I conceive it do but if your line come to ye point of ye feild below ye hil you must make more lines, & angles wch makes against your reason. To ye 3. & 9 you [ ] from ye line of ye marked trees: but who marked thos trees? not ye cōmitty, & [ ] ther is nothing in y^{t} argum^{t}. Your 5^{t} is answered before To ye 6^{t} I wonder you should say y^{t} ye bent of ye river & ye river cannot be seen, wch standing upon ye plaine is very visible as is allso ye field upon ye same station [ ] ye estimate of ther distance about 70 or [ ] was judged of: nor is it much missed by your accompt. but this [ ]ment is against yourselfe in point of distance & visibility of ye places whence y^{t} estimate upon veiw was taken. To ye 7. & 9 w^{t} force is in Decon Parkes testimony so many yeares since being absent: when ye cōmetty or some of them being upon ye place remembred y^{e}

course meadow before ye bent of ye river. I beleive had D: Parke bene upon ye place he could not say y^{t} ever he cam at your bent: as a comitty man. to ye 8^{t} It is enough y^{t} ye record make ye bent ye bound not naming either marked tre or meadow why should any reson therof be required of them so many yeares after Your 10th may seeme strong to yourselfe but is as weake as ye rest you know y^{t} text Levit 19. 15. Thou shalt not respect ye pson of ye poore in judgmt, & Deut 16. 20 That wch is alltogeth just shalt thou doe If you would doe good to ye poore Indeanes see y^{t} thay doe no unjust act, & y^{t} thay make restitution when it is done. It seemed strange to me to obserue y^{t} thay make so many small feilds at a double charge in other mens lands, & not improue so much as lieth wast at ther doores wher one comon fence might take in many lotts. But to put an end to thes disputes, & y^{t} we may at last be freed from thes incroachm^{ts}. I shall giue you 2 or 3 evident reasons y^{t} your bent of ye river wth y^{e}. line drawne frō it is utterly inconsistent wth ye reccord but ye other place. exactly agreing wth it: 1 The Record sayth y^{t} ye distance of ye bent of ye riuer to ye corner of ye feild by estimation was about 70 or 80 rod wheras your bent cannot be lesse then double y^{t} distance, neither could it ever be judged of by veiw for ye wod land y^{t} interpose exept thay had climed ye highest tre ther wheras ye other place comes neere y^{t} distance is easily guessed at by veiw. 2ly by ye record ye east line leaue your bent 10 rod east frō ye feild: but your line swallows up aboue an 100^{d} acres east of ye feild 3ly The record boundeth your land upon ye north [ ] wth ye river from ye mouth of ye brooke to ye bent aboue [ ] must needs be upstreame wher thos lands lye. but your [ ] downestreame. wher you have no land north of ye river. [ ] absurd & [ ] ionall were it to make ye river a boundary [ ] y^{t} never touch upon it. And w^{t} else was your temptation to [ ] ye record so corruptly putting in ye word downeward, but ye sence of this argum^{t} against you, to ye greife & offence of thos y^{t} heard you. Now ye good lord pardon all failings, abate your too much confidence, cleere up ye truth, & equity of this case to yourselfe & ye Indeans, & bring all harts to a quiet submission to so wise & equall minded Comitty upon ther confirmation of ther owne act

Wth my loue tendered to yourselfe & yours I rest

Yours in ye lord to loue & serue John Allin

A reply to the Rev'end Mr Allin about the bounds betwixt Dedham & Natik p^{r}sented to the worpfull Comitty, upon y^{t} affaire.

Rev'end & beloved in the Lord.

I would not willingly greive either yourselfe, or any other child of God, this comfort I have y^{t} I plead not for my selfe, but for Gods pore, & in a just cause. 1. my plea is y^{t} the record maketh but two lines & one angle. the first line begins at a bent of the river. & runeth to the south end of the south feild. About ten rods distant from the fence & there maketh a corner, at a marked tree. then turneth west, at the same distanc from the fenc of the same feild. & runeth to the river. touching the west line, at the south end of the feild we are agreed. & touching the south line, wch is the east border, we are agreed of at least one halfe if not two thirds of it. viz in all y^{t} pt of the line, wch runeth at the foot of the hill, about ten rod distant frō the fence, where there is a range of marked trees. this is the sum̄ of my three first ꝑpositions. to this you answ^{r}.

(if your line come to the poynt of the feild below the hill you must make more lines & angles wch maks against your reason A.) I beseech you S^{r} let us joyne to issue the case vpon this poynt. begin we at the south angle wch is agreed on. & run back northward, at the foote of the hill, where a range of trees are marked, untill we come to the north poynt of the feild, wch m^{r} Ting remembred & owned so soone as he saw it. so far we are agreed. Now frō henc, if the line unto the bent of the River wch I ꝑpose, turne & make an angle, & thereby an other line. and if it runeth straight on unto the place wch you ꝑpose to begin at, & maketh no angle, Then I ꝑmise to be silent, & rest satisfied to begin at the place wch you ꝑpose. And I request the same at your hands. viz. that if from the north corner of the feild aboue named, where the marked trees doe range, I say, if the line run right unto that bent of the river wch I ꝑpose, & make no angle. & if it make an angle & a new line, to run unto your place ꝑposed. Then be you silent, & rest satisfied therin. I beseech you for loves sake, & for the sake of the honour of christ, wch is not a litle concerned in this matter, let this poynt issue the case. and the rather, because, w^{n} ever a judgment shall passe upon it, this poynt of the Record will bring forth the issue. therefore in prudence, let us now agree it. And in hopes y^{t} you will consent to this plaine case, I shall the more briefly passe over the rest. 2 In the next place you speake unto my arguing frō the marked tree, refering it to my 3^{d} & 4^{t}. ꝑpositions. but it is a mistake, for it is in my 7^{t} ꝑposition, y^{t} I argue y^{t} poynt, unto wch you answer (but who marked y^{os} trees? not the com̄ittee, & therfore there is nothing in y^{t} argument) A. I can ꝑve sufficiently that the trees were marked, by the appoyntment of the com̄ittee. & y^{t} m^{r} Ting com̄anded the Indians, not only to mark the trees, but to lay stones about the roots of the trees so marked. 3 Nextly. upon my 6^{t} ꝑposition you say (I wonder y^{t} you should say, that the bent of the river cañot be seene, wch standing on the plaine, is very visible, as is also the feild upon the same station) A. such things as depend upon ocular demonstration, need not y^{t} words should be multiplyed about y^{m}. but let y^{m} be

looked upon, & see whether it be so or no. And wheras you say the feild is visible at y^{t} station where you would begin. I answer. y^{t} the feild mentioned in the record, at the foote wheroff the line runeth, about ten rods distant frō the east side of it, & at the same distanc at the south end of the same feild. I say, that feild is not visible, at the station you speak off, where you would begin. but it is visible at the bent of the river wch I insist upon. There be two great feilds, one begineth neere the bridg, & is that feild you meane, but there is a good distanc of woodlands betwixt this feild & y^{t} feild upon the hill, wch is mentioned in the record. wch is evident by ocular demonstration.

4 Further you say touching this station & feild (where the estimate of the distanc of 70 or 80 rod was taken) A. the mistake in this poynt lyeth here. you would have the nor-west corner of this feild, neere the bridg to be the bound of this estimate, frō thenc to the bent of the river. But the real truth is, y^{t} the north east corner of this feild, lying a litle beyond, or at the edges of the swamp, & right against the bent of the River, wch I ꝑpose, was the bound of y^{t} estimate.

5 In the next place, you object against my making use of Deakon Parks testimony, wch I doe, in two poynts. first. about the marked tree at the bent of the River, where the line begineth. & 2^{ly}. y^{t} we passed over a dirty swamp, afore we came at the bent of the River, where the line did begin. but you object his absenc at this reveiw. A. Mr Ting, out of his godly ingenuity & tendernesse in so weighty a cause, wherin the hono^{r} of Christ is so much concerned, is willing to call the cōmitty to another reveiw. & y^{n} y^{el} may wth y^{r} owne eyes determine those pleas wch depend upon ocular demonstration. we were in an hurry in the formerre view, because we hasted to the Lecture. & it was extreame hot. & m^{r} cook was sick, so y^{t} things could not possibly be throughly considered, as now y^{el} may be at a 2^{d} reveiw. 6 my plea in my 10^{t} ꝑposition. y^{t} we should not so injure the pore. you answer by two texts of scriptures, y^{t} we must not unjustly favor the pore. I accept your intimation, & desire to watch against the error on y^{t} hand, as I deslre you to watch against opp^{r}ssing y^{m}, or of seeming so to doe.

Some other things I will passe by at p^{r}sent, hoping y^{t} you will consent to my first request, to issue the controversy upon the poynt, wch yourselfe ꝑpose.

7 But you say (I will give 2 or 3 evident reasons, y^{t} your bent of the River wth the line drawne frō it, is utterly inconsistent wth the record. but the other place exactly agreeing wth it. 1^{t}. the record saith, y^{t} the distance of the bent of the river, to the corner of the feild by estimation was about 70 or 80 rods wheras your bent cañot be lesse y^{n} double y^{t} distanc. neither could it ever be judged off by veiw, for the wood lands y^{t} interpose, except y^{el} had climbed the highest tree there, where as the other place cometh neere y^{t} distanc, is easyly guessed at by vew.) this is your first reason. A. you make the westerly corner neere the bridg to be the bound of this estimate. wch is a

mistake. it was the easterly corner, w^{c}h lyeth just over against the bent of the River, & pveth a prudent estimate. And though it be ought of sight by the interposition of trees, yet when we turned downe frō the feild side, & came p^{r}sently to the River, discreet men may guesse at an estimate, though y^{et} have not a p^{r}set sight of both places.

2 your 2^{d} reason is this (by the record the east line leave you but ten rod east frō the feild. but your line swallows up above an hundred acrs east of the feild

A. your mistake lyeth about the feild mentioned in the record. the record speaketh of one feild, you speake of another. we have two great feilds there. one is the southermost feild, w^{c}h the record mentioneth, & layeth our line ten rods frō it, upon two sids theroff. viz. on the east side of it, & on the south side of it, by w^{c}h means it is most certaine, that, that is the feild mentioned in the record. but you speake of our other norwesterly feild, w^{c}h cometh allmost to the bridg, & endeth a litle beyond the swamp, by the bent of the river frō w^{c}h corner, the forementioned estimate of 70 or 80 rods, is taken, therby to describe the bent of the river. now beyond this feild southward is so much land at least, as you speak off, before the south feild w^{c}h is mentioned in the record, begineth. But these things are very capable of a cleare determination, by looking upon y^{m} wth our eyes. w^{c}h I hope, if need be, the worpfull comittee, will onc more doe.

your 3^{d} reason refereth to the record, upon anoth^{r} poynt & place, w^{c}h concerneth not these lines in question. & you say, what greife, & offenc I gave &c. but sure I am, there is no such word or thing, in my lers to the worpfull comittee. therefore I shall forbeare to give any answer, till I better understand the matter. Meanewhile I joyne wth you in your Christian desire of pardon for all o^{r} failings in these our transactions about earthly things. and my soules desire is y^{t} our last dayes may be our best dayes. & our last actions our best best actions. & y^{t} we may syncearely act for Jesus Christ. & so comending you to the Lord, & to the word of his grace I rest

[On back of this letter is written], Mr Eliots reply to Mr Allins answer.

To the worpfull Mr Ting wth the rest of the Comittee about Natik & Dedha bounds.

I intreat y^{t} these may be sent to Mr Allin of Dedha or a copie of y^{m}, y^{t} you may see the case fully discussed for we are agreed to discusse it by writing. and p^{r}sent all, first unto your selves. [Mass. Arch., CXII, 199, 200.]

Whereas, at the Generall Court in October, 1669, in answer to the request of some Praying Indians, setled vpon the north west corner of Naticke bounds, there was a graunt made of such a proportion of land as might be suiteable for their accomodation, and persons also deputed to lay

out the same, which order of the Court being at present lajd aside, so as that it cannot be found, is greivous to the poore natives, thereby being disapointed of their hopes, it is therefore ordered by this Court & the authority thereof, that the sajd grant shall & hereby is confirmed vnto them according to the true intent thereof, and John Stone & Thō Eames are appointed to lay out the same, & make their returne of what they doe to this Court in May next, so as the quantitye of land exceed not one thousand acres, nor intrench on former grants. [Oct. 12, 1670: Mass. Col. Rec., IV, Part II, 465.]

To the Honord the Gennerall Court

Wee whose names are scribed beeing appointed to goe to the Indians of Natick to see the differenc beetwene them and the Towne of Dedham concerneing their bounds of Land: and vpon the 22th day of the 6th month 1669 Theer meeting with vs Maior Lushere mr. Allen and severall others of the Towne of Dedham: as also mr. Elliott and severall of the principall Indians of Natick: wee finde: that the Line that the Indians Claime is not the line formerly layd out by the Commitee apointed by the Gennerall Court: Wee haveing veiwed seene the place and compared it with ye first retourne and the record of the gennerall Court: which is from thier fence to a bent of the river about 70 rods more or les. and this new claime from the same place to another bent of the River aboute 240 rods: and all of vs say to our best knowledge that we were never before at that place claymed by the Indians: so haveing seene the difference wee have stateed the bounds of the Easterly line to be as formerly layed out retourned and recorded viz: from the place where their first fence stood to the River about 70 rods and to com from the River and to run southerly vpon the east side of the Indians field about 10. or 12 rods without an orchard now growen with english grase by the field side which is somthing more then formerly but Dedham men Concuring therewith wee doe Judge meete that it should run as the former retourne and record of Court hath stated vp to the south Line: and further wē found no difference betwene them

[Mass. Arch. CXII, 219.] Edw Tyng, Edward Parker, Richard Cooke:

This may sartyfy all whom it may Consarn that I being by gods prouidenc hendred by sicknes from goeing to natteck with the Cummetty when they went the second time to vew the track of land formerly agred vppon by the Cummety I was desired by m^r Ellyot to testyfy what I remember abought sayd land then by vs the Cummetty agred vpon. this [ ] sayd to m^r Ellyot that on the Est side of natteck reuer I did and doe well remember that ther was a wett swamp which we wentt over wher ther was some ould fenc of posts and rails and Est of that swamp was the place that wee sent an Endion to mark atree nere the bent of the reuer which should be the bound tree to part the land betwixt dedham and the endions land then agred vpon by vs the Cummetty and last summer being 1670 I went to natteck and vewed sayd land and vpon the second time time vewing being in 1670. I find

it to be in my apprehencyon as it was sayd by me before I went the second time as afforesayd: Witnes my hand this 14 day of Juene 1671.
